EDUCATION

Degree/Certificate	Institute	CGPA/GPA	Year
BSc (CSE)	United International University	2.50/4.00 (77)	2022-Present
HSC (Science)	Ishwardi Government College	5.00/5.00	2020
SSC (Science)	Govt. Sara Marwari Model School And College	5.00/5.00	2018

FAMILY BACKGROUND

- **Father:** Md. Alauddin Khan — Businessman
- **Mother:** Mst. Yesmin Khanom — Housewife
- **Elder Brother:** MD Ifthakhirul — Electrical & Electronics Engineer

WORK EXPERIENCE

- Sub Team Lead Communication Team at UIU Aerial Robotics Team.
- Former Sub Team Lead Aerial & Communication Team at UIU Mars Rover Team.
- Member Aerial & Communication Team at UIU Mars Rover Team.
- Member Software & Autonomous Team at UIU Mars Rover Team.

AREA OF EXPERTISE

- I can build and fly drones and have hands-on experience with flight controllers. I am skilled in setting up and using different kind of communication modules and have experience on FPV drones and telemetry.
- Drone/UAV
- Robotics
- Custom Battery Packs
- I develop responsive and dynamic websites using modern web technologies and have experience in both front-end and back-end development.
- Web Development

RELEVANT COMPETITIONS

- **RoboFest** | A Competition Organized by East West University 2024
- **University Rover Challenge** | A Competition Organized by The Mars Society 2024 & 2025
- **Anatolian Rover Challenge** | A Competition Organized by The Space Exploration Society (UKET). 2025
- **CSE Project Showcase** | A Project Showcase Organized by CSE department (UIU). 2025

ACHIEVEMENTS

- Champion - Microprocessors and Microcontrollers Laboratory, CSE Project Showcase Summer25, UIU
- 3rd Runners-up - System Analysis and Design Laboratory, CSE Project Showcase Summer25, UIU
- 5th Position in the University Rover Challenge 2024, Hanksville, Utah, USA.
- 6th Position in the University Rover Challenge 2025, Hanksville, Utah, USA.
- Best Science Team Award in the University Rover Challenge 2025, Hanksville, Utah, USA.
- 3rd Position in the Anatolian Rover Challenge 2023, Ankara, Turkey.
- Best Science Team Award in the Anatolian Rover Challenge 2025, Ankara, Turkey.
- Best Autonomous Team Award in the Anatolian Rover Challenge 2025, Ankara, Turkey.
- Successful Completion of FAA Part 107 Small UAS Recurrent, 2025
- Achieved board scholarship in JSC, 2015

PROBLEM SOLVING

I have solved a moderate amount of easy problems from LeetCode.

[LeetCode Profile](#)

PROJECTS

- **Project Dead Cat: DIY FPV Drone with Stability & Style** | *Self Project* 2024
 - This lightweight, custom-built Dead Cat frame drone is designed for smooth, stable flights with excellent battery efficiency, giving you extended flight times. The splayed arm design minimizes propeller interference in camera footage, making it ideal for aerial videography and FPV flying. This documentation will guide you through building and optimizing the drone, making it easy to recreate or customize for your own flying experience.
- **Doctor-Appointment-System** | *DBMS Project* 2025
 - An Online E-Channeling Solution for clinics and hospitals, designed and developed by Team: DATA ALCHEMISTS. This system streamlines doctor appointments by allowing patients to book consultations online efficiently and conveniently..
 - Language: HTML, CSS, PHP , MYSQL.
- **AETHER UAV** | *Electronics Project* 2025
 - Advanced Electronic Tactical Hybrid Emergency Reconnaissance Unmanned Aerial Vehicle.
- **Rescue Drone** | *Microprocessor Project* 2025
 - A modular multi-role Unmanned Aerial Vehicle designed for real-time reconnaissance, disaster monitoring, and rescue missions.
- **Ayojok-A-Wedding-plannig-System** | *System Analysis and Design Laboratory Project* 2025
 - AYOJOK, a revolutionary system designed to simplify wedding planning for engaged couples and event planners nationwide. This presentation outlines our system's key features, implementation details, and our vision for making wedding management seamless and stress-free.
- **Metro-Police** | *Software Laboratory Project* 2026
 - Metro Police is an AI-enabled digital policing system designed to modernize law enforcement services in metropolitan areas. The platform connects citizens, police officers, and administrators through a centralized online system to ensure faster response, transparency, and smarter crime management.

LANGUAGE SKILLS (ENGLISH)

- Reading
- Writing
- Speaking

TECHNICAL SKILLS

Programming and Markup Languages

- C | C++ | Java | Python | Javascript | HTML | CSS

Database

- MySQL

Frameworks

- NodeJS | ReactJS | Figma

Tools/Software

- Git | Latex | Microsoft Word | Excel | Powerpoint

Drone/UAV

- Multi-Copter & Fixed-Wing Drone Building | Flight Controllers | Components & Accessories Expert
